VET Course Fees

VET Courses provide students with a range of alternate learning pathways. These courses are conducted by external course providers and fees for these courses are in addition to those of John Paul College. The funding provided for VET courses is subject to change each year, and every effort is made to keep VET fees low. Transportation and material costs are payable in addition to the John Paul College VET fee and will be charged to your school fee account. Should your child withdraw from the course or leave the school after the organisation's cut off date, the full year's fees will remain payable by you. The College website has details of John Paul College VET fees.

Statement of Fees

A statement showing your fees and charges will be supplied to you by mid-January. Please check items listed on your statement with your student/s to ensure all entries are correct. Monthly statements will also be sent during the year to your nominated email address. School fees and charges are subject to change as approved by the College Board.
